

We Make America Healthier!

For over thirty years, Human Arc has been a leader in helping hospitals and health plans improve revenue while giving low-income, disabled or aged patients in need better access to health care and assistance programs to improve their quality of life.

Human Arc is a different kind of company.

"I had given up on disability ... and then received your letter ... and you were able to get me approved with practically no work on my end and I just wanted to thank you because Human Arc literally saved my life.
